EXPERIENCE

Front-End React Native Developer

April. 2020 - Nov. 2020

Krypto Direct Incorporated | Vancouver, BC

A local Vancouver seed Cryptocurrency startup company. We help users to keep track of their wallet cryptocurrency and provide real time cryptocurrency market prices.

- Developed the front-end native app, which comprises user authorization/ authentication, real time cryptocurrency prices, user account information, and balance of user's cryptocurrencies
- Developed and Tested reusable UI components using React Native with detailed CSS styling, IOS and Android friendly, and React state management hooks
- Technologies: React Native, Expo, React Navigation, Jest, Cryptocurrency Api, and various npm packages
- Collaborated with an UX/UI designer using Figma, and a back-end developer using Node.js and Express.js

Summer Intern

June. 2018 - Aug. 2018

ChinaChem Agencies LTD | Hong Kong

- Assisted the development manager on the company's new development project by evaluating and selecting exquisite art pieces to be implemented into the project
- Inspection and Data entry for the company's newly developed residential estates
